Your Body Can Talk

“Dr. Susan Levy has written a comprehensive volume on kinesiology testing for organs, the immune system, candida, women’s issues, food sensitivities and more in her 368-page book Your Body Can Talk.

As Dr. Levy notes on page 143: ‘Food is fuel. Eating the correct foods, in the correct amounts adds to body energy and health. That’s why it’s so important

to learn what foods to eat, including how the body reacts to different foods, in order to avoid food sensitivities and addictions.’

This is a great add to your self-health library.”
