JOHN DIAMOND, M.D.

Your Body Doesn't Lie

“Dr. John Diamond’s revolutionary technique in kinesiology uses the wisdom of the body to measure many affects, including foods, surroundings, music and lifestyle, giving the power back to the patient.

As Dr. Diamond notes in Your Body Doesn't Lie: ‘No longer was it in my great and exalted opinion as a doctor or what the even more exalted textbook

said should be done. It was what the body said I should do. And when I did things right, the body told me so. Best of all, I was now in a position to give back to my patients the responsibility for being well.’

It’s a powerhouse of a read, and a classic.”
